PROGRAM FOR OUR BUSINESS CUSTOMERS

Ten years ago we started from an idea: to bring Made in Italy design all over the world, helping private individuals and professionals to find in a simple and immediate way products and materials for a new construction or renovation. For this reason, we have created a Partnership program with the intent to forge business links and collaborations with other organizations. It includes an exclusive discount advantageous compared to the prices of the price lists on our e-commerce, insurance coverage of the goods, access to the price lists of manufacturers, quality control goods and dedicated foreign advice. In addition, there is the possibility to access our online portal, which includes architects, interior designers, furniture retailers and engineer.

ATLANTA

Master bathroom

The bathroom has been structured in such a way as to make it a perfect room in the house for a couple, ideal for spending a lot of time inside. On the main wall, in fact, there is a top with two integrated washbasins Antonio Lupi Nido enriched by a piece of furniture Antonio Lupi Pantarei. The wall mounted taps consist of two progressive mixers CEA design Bar16. Above them, there are mirrors Antonio Lupi Neutro that make the bathroom even more spacious. Before reaching the bathtub area that occupies the entire bottom part, there is a shower area consisting of two positions, both with Antonio Lupi Lastra shower head and Ges-si Rettangolo double thermostatic mixer with CEA Design hand shower.

Secondary bathroom

Inside this bathroom there is a real piece of art, namely the freestanding washbasin Intro-verso, also by Antonio Lupi, made from a whole piece of marble and scratched completely by hand. The washbasin is also accompanied by an Antonio Lupi Ayati floor-standing column. There is also a shower with CEA Design shower head, shower arm and thermostatic mixer.

Living area

The Antonio Lupi Canto del Fuoco fireplace has been integrated to furnish and heat the main hall. An exclusive service has been offered for this project: our consultant Gian-domenico, is not limited to the choice of products for bathroom furniture or heating but, thanks to scrupulous research, has managed to find a magnificent modular sofa entirely Made in Italy. The sofa Edra On the Rock, placed in the center of the room and in front of the window, is the undisputed protagonist of the new living room, making the living space very elegant.
